Assemble

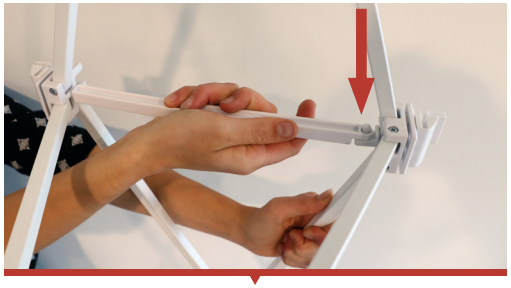

1. Open the frame by pulling the hinges outwards, with the light connectors facing away from you.

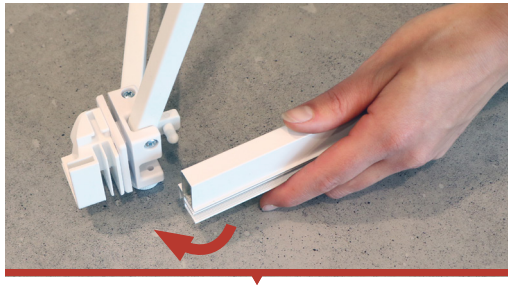

2. Place your hands on the crosses as shown in the picture.

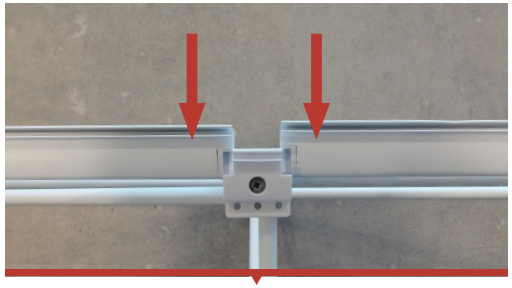

3. Gently lift up the frame while flipping it over, the pop-up frame will unfold itself.

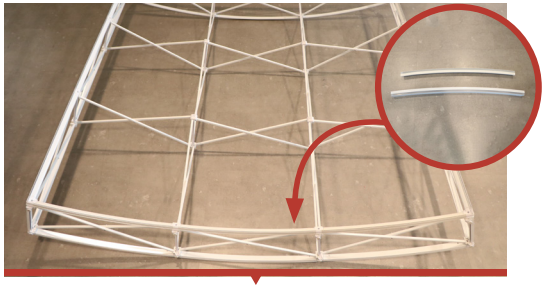

4. Close all clips to lock the frame.

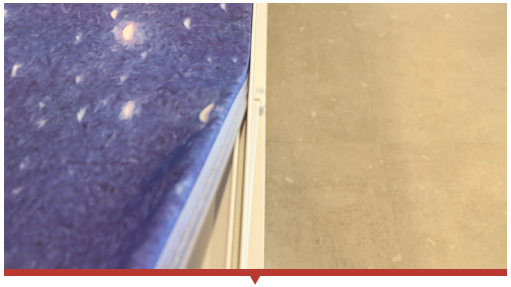

5. Close the attached bars in the 4 corners.

6. Place the frame on the ground and slide in the aluminium bars from the side.

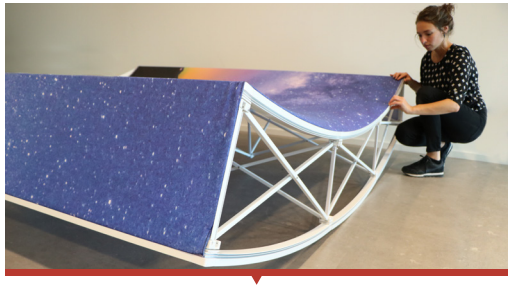

7. Place the long curved bars on the backside (outer curve) and the shorter ones on the frontside (inner curve)

8. Attach the fabric by pushing the silicone edges in the grooves.

9. Start in the 4 corners of the frame, to divide the tension.

10. Work your way around the frame until all silicone edges are attached.

11. Lift the frame, the system is now ready to use.

Disassemble

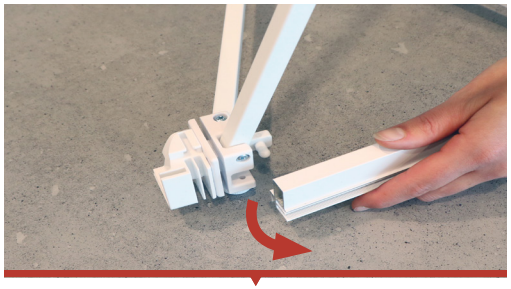

1. To take out the bars, give them a firm tap outwards on both ends.

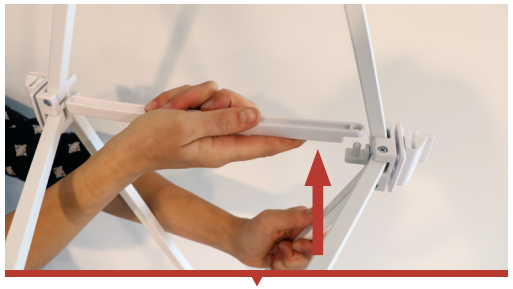

2. In this way the bars come lose, without damaging the caps or system.

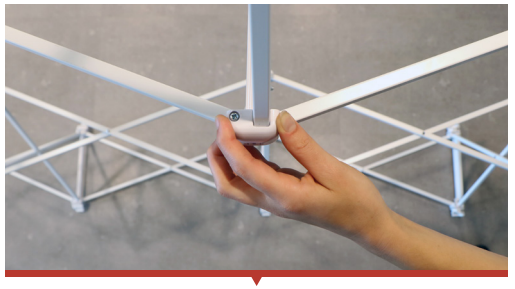

3. Now you can easily take out the bars.

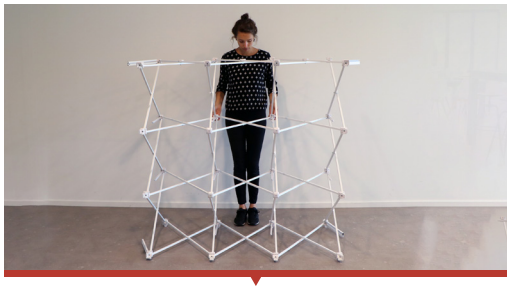

4. Open the attached bars in the 4 corners.

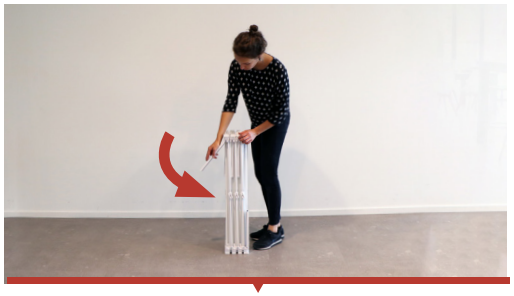

5. Open all clips, and double check to make sure all clips are disconnected.

6. Place your hands on the outside of the hinges to prevent your fingers from getting stuck.

7. Slowly move your hands downwards, the frame will fold itself.

8. Shut the attached bars in the 4 corners and pack the frame for storage.
